

Kentucky Library Association Board Meeting  
September 15, 2010  
Community & Technical College Roundtable  
(C&TC-RT) Annual Report

Our 2010 Officers are:

Chair – Nina Deeley  
Chair elect – Sara Brown

This past year our round table discussed Information Literacy. Patrick Davison created a Kentucky Library Association wiki site about Information Literacy. Those that have participated in the wiki have shared ideas and documents related to this topic. Some of the C&TCR members suggested contacting both the FoKal and KCTCS Information Literacy committees to get feedback on what types of programs and trainings they may have planned for the coming year. Our roundtable will continue to coordinate efforts to make sure we aren't duplicating what others have planned. Another suggestion from some of the KCTCS members of the C&TCR is to try for regional training Information Literacy sessions for the East, West and Central parts of the state. These sessions could include assessment measures and methods, assessment instruments, policies and statistical methods.

Another suggestion is to share Information Literacy bibliographic instruction through professional development workshops, etc. with the Kentucky School Media Association (KSMA) members. Nina Deeley and Patrick Davison will be presenting a session, about this topic, at the fall 2010 KLA/KSMA joint conference.

Respectfully submitted by

Nina Deeley, Chair C&TC-RT
